BEST AT THEIR PROFESSION

This May, LUKOIL Makedonija has organized the first stage of the competition called “Best at their profession” for the following positions:

- Filling station operator (receiving and recording incoming petroleum products)
- Filling station operator (filling station market sales assistant)

This particular section of the competition was attended by a total of 51 competitors, that is, two participants from each filling station. The competition comprised of two stages:

- In the first stage of the competition, all competitors were tested to check their knowledge in Company's rules and standards, the ability to work in line with the rules applying to the additional array of products and services, as well as their merchandising skills.
- The second stage of the competition focused on a practical test to check competitors' knowledge and skills in working with petroleum products at specific temperature and density, their ability to draft documents and their skills in delivering services to clients at LUKOIL's filling stations.

This was the third competition in a row. Back in 2011, LUKOIL Makedonija participated at the sixth competition for professional skills organized for all the organizations within the LUKOIL Group which took place in Volgograd, as well as at the seventh competition organized in Nizhny Novgorod.

Based on the results obtained, the best individuals in their respective category of competition were as follows:

- Filling station operator (receiving and recording incoming petroleum products)
